

Welcome to:

The CMRC informal winter "competition" in oral presentation 2006

Date: Friday, December the 15th, 13.00 – 16.30

Place: Auditorium 1, August Krogh Institute

Idea: For general information to have a broad presentation of ongoing activities in the various parts of CMRC and to offer an opportunity for young scientists to present and discuss their findings in front of a big but friendly audience.

Format: 10 min. presentation + 5 min. discussion. An abstract of at most one page (A4) must be submitted to ps03@bbh.hosp.dk no later than Friday the 1st of December at 11 o'clock.

Prizes: An external evaluation committee will nominate candidates for the 1st, 2nd and 3rd prize. In order to appoint evaluations with appropriate expertise we ask for non-committal registrations stating your research area to ps03@bbh.hosp.dk before 03.11. We do not get angry if you subsequently withdraw or if you register without prior notice, but then you will not have any influence on the choice of evaluators.

Who: Scientists who have not achieved permanent positions (e.g. students, PhD-students, research assistants, postdocs).
