

CMRC seminar 30.05.2007

August Krogh Building, Auditorium 1

Seminar title:

Mitochondrial function; effects on ageing and skeletal muscle.

Kl. 14:00-14:45: Vilhelm Bohr, NIH, Bethesda, USA

“Mitochondrial DNA damage processing and ageing”

Kl. 14:45-15:00: Tina Dysgaard Jeppesen, CMRC and Neuromuscular Research Unit

“Mitochondria and sarcopenia: New research developments”

Kl. 15:00-15:15: Coffee and cakes.

Kl. 15:15-15:35: Thomas Krag, CMRC and Neuromuscular Research Unit

“Effects of abnormal mtDNA on muscle morphology”

Kl. 15:35-16:00: Tina Dysgaard Jeppesen, CMRC and Neuromuscular Research Unit

“Lactate kinetics in respiratory defects”, and “Is functional sympatholysis during exercise mediated by ATP in mitochondrial myopathy”?

Chairman: John Vissing
